(20) The Citizens' (Owners') Rights: Executive Short List

This document provides the condensed index of the 39 Rights. **Operational Note:** Users must review the "Disclaimer" (Document 53) [REF:D53] regarding operational risk assessments and liability before deployment.

Rights Classification Labels
TCORF Rights are labeled using two categories to improve clarity and adoption:

- **[AUDIT EFFECT]**: The Right is tested by what the Organization publishes and by how it handles a request: intake, registration, routing, preservation. The Owner records the result. The Right does not stop the action it describes.
- **[STOP CONDITION]** Everything under [AUDIT EFFECT], and in addition the Right's failure criteria name the act itself, not only the handling of a request.

Both categories are audit benchmarks, not legal entitlements.

Why these 39
Each Right is built against a specific way an Owner can lose something — mostly a documented mechanism, some a structural asymmetry, a few anticipatory. Many more were considered and dropped. Some titles below will not match anything in your experience; that is expected, and not a sign the list is arbitrary. Before discarding one, read its description in Document 30. Selection method: Document 10, Section 3 and Section 4.

Category 1: Foundational Governance

1. Treat Every Citizen as an Owner [STOP CONDITION]
2. Right to Non-Violent Speech [STOP CONDITION]
3. Open Access to All Laws [STOP CONDITION]
