Prompts

(15) Prompt Files	Purpose
"prompt_#00_….txt" to "prompt_#14_….txt"	Prompt explanations in docs README and D12

Reading times are per document, for a common reader. Documents 31 and 32 are look-up documents and Document 50 is read on demand, so the column is not a total. For onboarding paths and their times, see D12, Section 1.

Operational Note: Users must review the **"Disclaimer" (Document 53 [REF:D53])** regarding operational risks and liability before deployment, particularly in volatile environments.

Version integrity. Each release carries a version string, and a file digest list is published at www.tcorf.com. A copy whose digest does not match is not the framework.
